

AQUA-P

Sampling plug valve for drinking water

Technische Merkmale

Design Characteristics

- plug valve free of cavity
- maintenance free - self lubrication (PTFE sleeve)
- absolutely tight
- simple operation
- corrosion-resistant (Stainless steel)
- no calcification

on request

Materials

Standard Materials(Body)

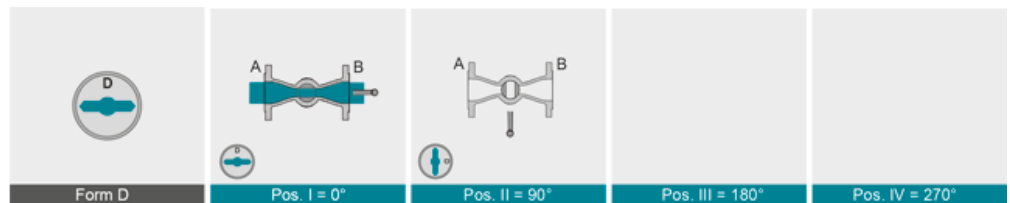

- Stainless steel 1.4408, ASTM A351 CF8M

Standard Materials (Plug)

- Stainless steel 1.4408, ASTM A351 CF8M

Sealing Systems

Port Forms

Technische Daten

Connection: 1/4" male thread

Dimensions: 65 mm
